SHORYU

How to make the perfect **Shoryu Vegan White Natural Ramen** (2 servings)

01

Add 400ml of water to a small pan and bring to the boil

02

Pour the white natural stock into the pan of water

03

Mix the stock and water well to create your soup

04

Bring the white natural soup to a gentle boil and simmer (be careful not to simmer off too much liquid)

05

While the stock is coming to the boil cut the atsuage fried tofu into 4 even slices (2 for each ramen) and chop your spring onion

06

Fill another small pan with water for the ramen noodles and bring to the boil

07

With your hands gently loosen the ramen noodles, add to the water and boil for 45 seconds stirring to separate them fully (To cook the gluten free noodles please follow the on pack instructions)

08

While you're boiling the noodles, put the sliced atsuage fried tofu into the boiling water for just 10 seconds to warm

09

Drain the ramen, divide between two bowls

10

Pour the piping hot white natural soup evenly over both of the bowls of ramen noodles

11

With your chopsticks mix the noodles and soup together well in the bowl

12

Arrange your spring onion, kikurage mushrooms, menma bamboo shoots and atsuage fried tofu slices on the top of each ramen. Add any extras you fancy such as nori seaweed

14

That's it! Slurp those Shoryu vegan white natural ramen noodles while they're piping hot
